Hello! Welcome to ter

In this term we're going to be learning about HTML and CSS. These ar

Please go through each session yourself to make sure you understanc
help you highlight any possible problem areas.

##1) Internet

Does your primary school have internet? Does it have a decent capac
be online at the same time? Are certain websites blocked? Can you us
the browser has some web developer tools you can use instead (like f

##2) Text editors

Are you allowed to install software on the computers at the venue? If
Sublime Text 3 which can be downloaded free for evaluation and is av
us written permission to use Sublime Text in Code Clubs without payir

If you're not allowed to install software than use Notepad for PC or Tex
highlighting.

##3) Browsers

Again this depends on whether you're allowed to install software, but
Opera. If you can also install the developer tools for the browser you c
to explore what goes on behind the scenes.

As before there are individual sessions and then one session that can

##4) Hosting students work

If we're making websites then need to be online right? Unfortunately a
you should look into how to do this individually for your club.

Good luck! Team Code Club
